The Department of Veterans Affairs operates programs to benefit veterans and members of their families. Benefits include compensation payments for disabilities or death related to military service; pensions; education and rehabilitation; home loan guaranty; burial; and a medical care program incorporating nursing homes, clinics, and medical centers.

The Department of Veterans Affairs (VA) was established as an executive department by the Department of Veterans Affairs Act (38 U.S.C. 201 note). The Department's predecessor, the Veterans Administration, had been established as an independent agency under the President by Executive Order 5398 of July 21, 1930, in accordance

with the act of July 3, 1930 (46 Stat. 1016). This act authorized the President to consolidate and coordinate the U.S. Veterans Bureau, the Bureau of Pensions, and the National Home for Volunteer Soldiers.

The Department of Veterans Affairs comprises three organizations that administer veterans programs: the

DEPARTMENT OF VETERANS AFFAIRS

Veterans Health Administration, the Veterans Benefits Administration, and the National Cemetery Administration. Each organization has field facilities and a Central Office component. The Central Office also includes separate offices that provide support to the top organizations' operations as well as to top VA executives. Top Central Office managers, including the Inspector General and General Counsel, report to the highest level of Department management, which consists of the Secretary of Veterans Affairs and the Deputy Secretary.

Assistant Secretaries Six Assistant Secretaries provide policy guidance, operational support, and managerial oversight to the Secretary and Deputy Secretary, the administrations, and other top offices. They include the Assistant Secretaries for Congressional Affairs, Financial Management, Human Resources and Administration, Information and Technology, Planning and Analysis, and Public and Intergovernmental Affairs. Other central management offices are detailed as follows.

Center for Minority Veterans The Center for Minority Veterans was established under Public Law 103-446 (108 Stat. 4645). The Center is responsible for promoting the use of VA benefits, programs, and services by minority veterans and assessing the needs of minority group members. Under the law, the Center's work focuses on the unique and special needs of five distinct groups of veterans: African-Americans, Hispanics, Asian-Americans, Pacific Islanders, and Native Americans, which include American Indians, Native Hawaiians, and Alaskan Natives. The Center also oversees the administrative functions of the VA's Federal Advisory Committee on Minority Veterans.

The primary mission of the Center for Minority Veterans is to ensure that the Department of Veterans Affairs addresses the unique and special needs of minority veterans. The Center also focuses on circumstances, policies, and practices that impede the use of programs and services by minority veterans.

Center for Women Veterans The Center for Women Veterans acts as the Secretary's primary adviser on women veterans issues and evaluates VA programs, policies, and practices to ensure they are responsive and accessible to eligible women veterans.

Board of Veterans' Appeals The Board of Veterans' Appeals (BVA) is responsible, on behalf of the Secretary of Veterans Affairs, for entering the final appellate decisions in claims of entitlement to veterans' benefits. The Board is also responsible for deciding matters concerning fees charged by attorneys and agents for representation of veterans before VA, as well as requests for revision of prior BVA decisions on the basis of clear and unmistakable error. The mission of the Board, set forth in title 38 of the United States Code, sections 7101-7109, is to conduct hearings, consider and dispose of appeals properly before the Board in a timely manner, and issue quality decisions in compliance with the law. The Board is headed by a Chairman, who is appointed by the President and confirmed by the Senate, and who is directly responsible to the Secretary of Veterans Affairs. Members of the Board are appointed by the Secretary with the approval of the President and are under the administrative control and supervision of the Chairman. Each BVA decision is signed by a Board member acting as an agent of the Secretary. Final BVA decisions are appealable to the United States Court of Appeals for Veterans Claims.

Board of Contract Appeals The Board of Contract Appeals was established on March 1, 1979, pursuant to the Contract Disputes Act of 1978 (41 U.S.C. 601-613). The Board is a statutory, quasi-judicial tribunal that hears and decides appeals from decisions of Contracting Officers on claims relating to contracts awarded by VA, or by any other agency when such agency or the Administrator for Federal Procurement Policy has designated the Board to decide the appeal.

The Board's jurisdiction includes applications for attorney fees and

expenses under the Equal Access to Justice Act, as amended (5 U.S.C. 504 note). Board decisions are final within VA, but may be appealed, either by the Government or by the contractor, to the United States Court of Appeals for the Federal Circuit.

The Board also acts as a trier of disputed material facts in debarment/suspension proceedings. Additionally, the Chairman of the Board is the senior official within the Department to promote alternate dispute resolution pursuant to the Administrative Dispute Resolution Act (5 U.S.C. 581 note). Finally, the Board is charged with resolving any disputes between drug manufacturers and the Secretary with regard to pharmaceutical pricing agreements provisions of the Veterans Health Care Act of 1992 (38 U.S.C. 101 note).

Health Services

The Veterans Health Administration, formerly the Veterans Health Services and Research Administration, provides hospital, nursing home, and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. It operates 173 medical centers, 39 domiciliaries, 376 outpatient clinics, 131 nursing home care units, and 205 Vietnam Veteran Outreach Centers in the United States, the Commonwealth of Puerto Rico, and the Republic of the Philippines, and provides for similar care under VA auspices in non-VA hospitals and community nursing homes and for visits by veterans to non-VA physicians and dentists for outpatient treatment. It also supports veterans under care in hospitals, nursing homes, and domiciliaries operated by 35 States. Under the Civilian Health and Medical Program, dependents of certain veterans are provided with medical care supplied by non-VA institutions and physicians.

The Administration conducts both individual medical and health-care delivery research projects and multihospital research programs. It assists in the education of physicians and dentists, and with training of many other

health care professionals through affiliations with educational institutions and organizations. These programs are all conducted as prescribed by the Secretary of Veterans Affairs pursuant to sections 4101–4115 of title 38 of the United States Code and other statutory authority and regulations.

Veterans Benefits

The Veterans Benefits Administration (VBA), formerly the Department of Veterans Benefits, conducts an integrated program of veterans benefits. It provides information, advice, and assistance to veterans, their dependents, beneficiaries, representatives, and others applying for VA benefits. It also cooperates with the Department of Labor and other Federal, State, and local agencies in developing employment opportunities for veterans and referral for assistance in resolving socioeconomic, housing, and other related problems. In addition, VBA provides information regarding veterans benefits to various branches of the Armed Forces.

Programs are provided through VA regional offices, medical centers, visits to communities, and a special toll-free telephone service (800–827–1000) and are available in all 50 States, the District of Columbia, and Puerto Rico.

Compensation and Pension The Compensation and Pension Service has responsibility for:

- claims for disability compensation and pension;
- automobile allowances and special adaptive equipment;
- claims for specially adapted housing;
- special clothing allowances;
- emergency officers' retirement pay;
- eligibility determinations based on military service for other VA benefits and services or those of other Government agencies;
- survivors' claims for death compensation, dependency and indemnity compensation, death pension, burial and plot allowance claims;
- claims for accrued benefits;
- forfeiture determinations;
- claims for adjusted compensation in death cases;

- claims for reimbursement for headstone or marker; and
- a benefits protection program (fiduciary activities) for minors and incompetent adult beneficiaries.

The Service also provides field investigative services for other VA components.

Education The Education Service has responsibility for: the Montgomery GI Bill—Active Duty and Selected Reserve (chapters 30 and 1606); the Post Vietnam Era Veterans' Educational Assistance Program (chapter 32); the Survivors' and Dependents' Educational Assistance Program (chapter 35); the Section 901 Test Program; and school approvals, compliance surveys, and work study.

Vocational Rehabilitation The Vocational Rehabilitation Service has responsibility for: outreach, motivation, evaluation, counseling, training, employment, and other rehabilitation services to disabled veterans (chapters 31 and 15); evaluation, counseling, and miscellaneous services to veterans and service persons (chapter 30) and other VA education programs; evaluation, counseling, education, and miscellaneous services to sons, daughters, and spouses of totally and permanently disabled veterans and to surviving orphans, widows, or widowers of certain deceased veterans, including rehabilitation services to certain handicapped dependents (chapter 35); and affirmative action activities. Effective October 1, 1997, the Service has responsibility to provide vocational training and rehabilitation to children with spina bifida who are children of Vietnam veterans (chapter 18).

Loan Guaranty Loan guaranty operations include: appraising properties to establish their values; approving grants for specially adapted housing; supervising the construction of new residential properties; establishing the eligibility of veterans for the program; evaluating the ability of a veteran to repay a loan and the credit risk; servicing and liquidating defaulted loans; and disposing of real estate acquired as the consequence of defaulted loans.

Insurance Life insurance operations are for the benefit of service members, veterans, and their beneficiaries. The day-to-day processing of all matters related to individual insurance accounts is handled by the Regional Office and Insurance Centers in Philadelphia, PA, and St. Paul, MN. These two centers provide the full range of functional activities necessary for a national life insurance program. Activities include the complete maintenance of individual accounts, underwriting functions, and life and death insurance claims awards, as well as any other insurance-related transactions. For information, call toll-free, 800-669-8477.

The agency is also responsible for the administration of the Veterans Mortgage Life Insurance program for those disabled veterans who receive a VA grant for specially adapted housing. Accounts are maintained at the Regional Office and Insurance Center in St. Paul, MN.

In addition, the agency is responsible for supervising the Servicemen's Group Life Insurance (SGLI) and Veterans Group Life Insurance (VGLI) programs. Both programs are handled through the Office of Servicemen's Group Life Insurance, 213 Washington Street, Newark, NJ 07102. For information, call toll-free, 800-419-1473.

National Cemetery Administration

The National Cemetery Administration (NCA) provides services to veterans, active duty personnel, reservists, and National Guard members with 20 years' qualifying service and their families by operating national cemeteries; furnishing headstones and markers for the graves of U.S. veterans worldwide, service members, and reservists and National Guard members with 20 years' qualifying service; awarding grants to aid States in establishing, improving, and expanding veterans cemeteries; and serving as the operations element for the Presidential Memorial Certificate Program.

The mission of the National Cemetery Administration is:

- to provide, upon request, the interment of eligible service members, veterans, reservists and National Guard members with 20 years' qualifying service, their spouses, and certain children in VA national cemeteries and to maintain their graves;

- to mark, upon application, the graves of eligible veterans worldwide, and reservists and National Guard members with 20 years' qualifying service who are buried in national, State, or private cemeteries;

- to administer the State Cemetery Grants Program, which provides financial assistance to States for establishing, improving, and expanding State veterans cemeteries; and

- to provide Presidential Memorial Certificates to the loved ones of honorably discharged, deceased service members or veterans.

The National Cemetery Administration area offices (located in Atlanta, GA; Philadelphia, PA; and Denver, CO) provide direct support to the 115 national cemeteries located throughout the United States and Puerto Rico.

Field Facilities

Insurance Centers Two field sites house all individual insurance records covering service members and veterans under the Government-administered programs: WW I United States Government Life Insurance; WW II National Service Life Insurance; Post-Korean Conflict; Veterans Reopened Insurance for the disabled of WW II and Korea; and Service-Disabled Veterans Insurance, the only Government-administered program open for new issues to disabled veterans only.

The two field locations are the VA Regional Office and Insurance Centers in Philadelphia, PA, and St. Paul, MN. All World War I insurance accounts, accounts for which the premium is paid by allotment from military service pay, and those paid by deduction from VA compensation or preauthorized debit are located at Philadelphia. All remaining insurance accounts are geographically distributed between the two VA Centers—with the Mississippi River

serving as the approximate line of division. The Philadelphia Veterans Affairs Center is also responsible for formulating policy for the veterans insurance programs.

The insurance functions performed by the two field stations include the total range of insurance operations to provide individual policy, underwriting, and life and death insurance claims service for service members, veterans, and their beneficiaries.

Regional Offices Department of Veterans Affairs regional offices:

- grant benefits and services provided by law for veterans, their dependents, and beneficiaries within an assigned territory;

- furnish information regarding VA benefits and services;

- adjudicate claims and make awards for disability compensation and pension;

- supervise the payment of VA benefits to incompetent beneficiaries;

- aid, guide, and prescribe vocational rehabilitation training and administer educational benefits;

- guarantee loans for purchase of manufactured homes and lots and condominium units, purchase or construction or alteration of homes and farm residences, and under certain conditions, guarantee refinancing loans;

- process grants for specially adapted housing;

- process death claims;

- assist the veteran in exercising rights to benefits and services; and

- supervise VA offices under their jurisdiction.

The offices are also responsible for veterans assistance activities, including coordination of efforts of participating agencies in an outreach program to assist returning service members.

Services to U.S. veterans in most foreign countries normally are provided by the VA Regional Office, District of Columbia. The Honolulu Regional Office serves the Islands of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Wake, and Midway and the Trust Territory of the Pacific Islands. U.S. veterans in the Virgin Islands and Mexico are served by the San Juan and Houston offices,

respectively. Service is provided in cooperation with embassy staffs of the Department of State.

Department of Veterans Affairs Regional Office, District of Columbia

The Department of Veterans Affairs Regional Office, District of Columbia, is a typical regional office with additional functions. It has global jurisdiction and grants benefits and services provided by law for veterans and their beneficiaries and dependents residing outside the territorial limits of the United States, and it adjudicates certain unusual claims and actions not common to all regional offices, such as WW I adjusted compensation death cases, forfeiture cases, and benefits under special enactments provided by the Congress. It also maintains liaison with the Treasury Department on types and methods of payments to recipients in foreign countries.

VA Offices The VA office provides veterans assistance and such other services as cannot be conveniently provided to veterans, their dependents and beneficiaries, and others in a given locality by a regional office or center.

Medical Centers Veterans Affairs Medical Centers provide eligible beneficiaries with medical and other health care services equivalent to those provided by private-sector institutions, augmented in many instances by services to meet the special requirements of veterans. One hundred and twenty-six VA medical facilities are affiliated with 107 medical facilities for residency training; 72 VA medical facilities are affiliated with 59 dental schools; and all centers cooperate with one or more educational institutions in programs of nursing, associated health professions and occupations, and administrative training and related research, both in individual projects and in association

with other VA medical centers in broad cooperative studies. There are 131 nursing home care units associated with VA medical centers to provide skilled nursing care and related medical services to patients who are no longer in need of hospital care.

VA Regional Office and Insurance Centers

Veterans Affairs Regional Office and Insurance Centers combine a regional office and an insurance center under the jurisdiction of one director.

VA Medical and Regional Office Centers

Veterans Affairs Medical and Regional Office Centers combine a regional office and a medical center or a regional office, medical center, and domiciliary under the jurisdiction of one director.

Domiciliaries Veterans Affairs Domiciliaries provide the least intensive level of inpatient medical care. This includes necessary ambulatory medical treatment, rehabilitation, and support services in a structured environment to veterans who are unable because of their disabilities to provide adequately for themselves in the community.

Outpatient Clinics Veterans Affairs Outpatient Clinics provide eligible beneficiaries with ambulatory care.

VA National Cemeteries Veterans Affairs national cemeteries are the final resting places for burial of the remains of veterans, active duty personnel, reservists, and National Guard members with 20 years' qualifying service, their spouses, and certain eligible dependents. Memorial markers for veterans, service members, and reservists and National Guard members with 20 years' qualifying service, whose remains are not available for burial, may also be placed in a national cemetery. These cemeteries are designated as national shrines created in tribute to the sacrifices of all Americans who have served in the U.S. Armed Forces.
